

IPO CHART

Program name:	[Chapter 3 Digits]	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
- Diameter of the pizza (entered in inches by the user).	1. The program asks the user to enter the diameter of the pizza. 2. The diameter is read and stored as a number. 3. The program calculates the material cost using the formula: $\text{material} = 0.05 \times \text{diameter} \times \text{diameter}$ 4. The program adds the fixed labor cost (\$0.75) and the fixed rent cost (\$1.00) to the material cost. 5. The result is stored in a variable called total cost .	-The program displays the total cost of making the pizza in dollars(\$)
